

# ANDREW MARTIN

## *Delta Tropic*

### Outdoor Fabric

Delta is a rustic herringbone print taking inspiration from the undulating surface and intricate patterns of this eponymous geographical feature. In vibrant pink, the slim, free hand lines zig zag across the fabric creating subtle areas of light and shade to give the print an organic, textured feel.

This fabric is part of our collection 'The Great Outdoors', it has a shower resistant finish which is anti-mould, anti-mildew and anti-microbial. Each fabric has been printed using EcoFast digital pigment printing methods, which use 50% less water than traditional print methods. As with most outdoor textiles, they prefer to be stored inside when they aren't being used, or during periods of wet, cold or damp weather.

**This fabric can be FR treated to BS5852 Match Upholstery for indoor use.**
